

# Home Contents Checklist

This checklist is only intended to give you a general indication of some of the contents that might be found in a home. It provides categories of items as a prompt for you to consider the contents of your home. The values we have used are notional only and do not take into account the quantity, quality, age or model of your contents.

If you are unsure about how to obtain your values, or need assistance with your valuation, it is recommended that you obtain a contents valuation from a qualified valuer. Neither the individual values listed nor the values you insert will be used in a claim, with the exception of specified items where the maximum we will pay are the limits set out on the back of this page and in the policy unless you specify a different amount.
