

Looking to  
renovate or do  
a bit of DIY?

AMP Site Cover

# Did you know that your home insurance may not cover you for damage caused as a result of any structural additions or alterations to your home?

Kiwis. We're known for our DIY 'can do' attitude. What a lot of us don't know is that our home insurance doesn't necessarily cover us for any damage to the house relating to major renovations, structural alterations or additions (even if you have a contractor doing the work for you).

If you're getting ready to do a bit of DIY, or even hiring a contractor to do the work for you, contact your AMP Adviser about AMP's construction insurance policy – AMP Site Cover.

AMP Site Cover in conjunction with an AMP Home Plan policy, will help you get on with the job knowing that you'll be covered when the unthinkable happens.

Speak to an AMP Adviser today about how AMP's Site Cover can help protect your next renovation or DIY project.
