

01 February 2024

New Zealand Retirement Trust

Product Disclosure Statement

This is a replacement product disclosure statement which replaces the product disclosure statement dated 10 October 2023.

Offer of membership of the New Zealand Retirement Trust - Personal Superannuation Section (including QROPS)

Issued by AMP Wealth Management New Zealand Limited

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on disclose-register.companiesoffice.govt.nz. AMP Wealth Management New Zealand Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013. You can also seek advice from a financial advice provider to help you to make an investment decision.

A little help.

1. Key information summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. AMP Wealth Management New Zealand Limited (AMP, we, our, or us) will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of AMP and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you'll be charged are described in this document.

What will your money be invested in?

The New Zealand Retirement Trust (NZRT/Scheme) has 30 investment options* offered under this Product Disclosure Statement (PDS).

Some of these investment options are summarised below. More information about the investment target and strategy for each of these investment options is provided at section 3 'Description of your investment option(s)'.

The other investment options (Other Funds) offered under this Product Disclosure Statement (PDS) are listed below. A summary of the investment target and strategy, and other information about performance and fees, for each of these investment options is contained in a separate fund update. These fund updates are included in the Fund Update Booklet provided with this PDS and should be read together with this PDS. You can also obtain copies from amp.co.nz/forms.

Further information is available in this PDS on these investment options				
Fund name	Brief description of fund and investment objective	Risk indicator	Annual fund charges (% p.a. estimated)	Lifesteps age bracket
AMP Conservative Fund	<p>Description: A well-diversified portfolio primarily investing in income assets with a conservative allocation to growth assets.</p> <p>Objective: To achieve modest to medium returns.</p>	<p>Potentially lower returns ← Potentially higher returns →</p> <p>1 2 3 4 5 6 7</p> <p>← Lower risk Higher risk →</p>	2.05%	65 +
AMP Moderate Fund	<p>Description: A well-diversified portfolio primarily investing in income assets with a moderate allocation to growth assets.</p> <p>Objective: To achieve modest to medium returns.</p>	<p>Potentially lower returns ← Potentially higher returns →</p> <p>1 2 3 4 5 6 7</p> <p>← Lower risk Higher risk →</p>	2.15%	57 - 64
AMP Moderate Balanced Fund	<p>Description: A well-diversified portfolio with an allocation to growth assets that broadly equals the allocation to income assets.</p> <p>Objective: To achieve medium returns.</p>	<p>Potentially lower returns ← Potentially higher returns →</p> <p>1 2 3 4 5 6 7</p> <p>← Lower risk Higher risk →</p>	2.20%	48 - 56
AMP Balanced Fund	<p>Description: A well-diversified portfolio with a balance of risk through holding growth and income assets.</p> <p>Objective: To achieve medium returns.</p>	<p>Potentially lower returns ← Potentially higher returns →</p> <p>1 2 3 4 5 6 7</p> <p>← Lower risk Higher risk →</p>	2.20%	40 - 47
AMP Growth Fund	<p>Description: A well-diversified portfolio primarily holding growth assets with a lower allocation to income assets.</p> <p>Objective: To achieve medium to high returns.</p>	<p>Potentially lower returns ← Potentially higher returns →</p> <p>1 2 3 4 5 6 7</p> <p>← Lower risk Higher risk →</p>	2.14%	31 - 39
AMP Aggressive Fund	<p>Description: A well-diversified portfolio primarily holding growth assets with a low allocation to income assets.</p> <p>Objective: To achieve high returns.</p>	<p>Potentially lower returns ← Potentially higher returns →</p> <p>1 2 3 4 5 6 7</p> <p>← Lower risk Higher risk →</p>	2.27%	Up to 31

See section 4 'What are the risks of investing?' for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Lifesteps is an investment option that automatically reduces expected investment risk with age. Lifesteps works by investing your savings in one of six funds, depending on your age (see table above).

Who manages the NZRT?

AMP is the manager of the Scheme. See section 7 'Who is involved?' for details.

How can you get your money out?

As NZRT is designed to help you save for retirement, you generally cannot withdraw your funds until you reach NZ retirement age (currently age 65). If you have any UK sourced pension funds (UK funds) in NZRT, then you generally cannot withdraw these funds (including investment returns) until you reach the normal minimum pension age in the UK (currently age 55, increasing to 57 on 6 April 2028).

Early withdrawals are permitted in limited circumstances.

We may defer processing withdrawals, transfers or switches. If you've transferred UK funds into a NZRT Qualifying Recognised Overseas Pension Scheme (QROPS) account, additional withdrawal rules may apply. In addition to meeting your Plan's withdrawal criteria you'll need to meet those of HM Revenue and Customs (HMRC). Talk to your Adviser for more information.

For more information see section 2 'How does this investment work?'

How will your investment be taxed?

NZRT is a portfolio investment entity (PIE).

The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (PIR). This can be 10.5%, 17.5% or 28%. See section 6 'What taxes will you pay?' on page 12 for more information.

Where can you find more key information?

AMP is required to publish quarterly updates for each investment option. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at amp.co.nz/nzrt-qfu. The manager will also give you copies of those documents on request.

2. How does this investment work?

This PDS offers membership in the Personal Superannuation Section (Section) of NZRT.

NZRT is a registered scheme under the Financial Markets Conduct Act 2013. It has three sections – this Section, a Workplace Savings Section (which is offered under a different PDS), and a third section which no longer accepts new members. The Scheme is designed to provide retirement benefits.

It is also currently a QROPS, which means that you may be able to transfer UK pension funds to this Section of the Scheme. As a QROPS, members who have transferred their UK pension to NZRT are subject to the rules applying to QROPS under UK legislation.

About the Scheme

The Scheme is a managed fund. The key benefits of the Scheme are:

- having access to investments you may otherwise not be able to access as an individual as your money is pooled with other investors' money and invested by AMP;
- having your investment managed by experienced professionals;
- having access to a range of investment funds, you can choose from the funds set out on pages 8 to 9 or refer to the Fund Update Booklet for the Other Funds, or you can choose Lifesteps;
- being able to accept UK pension transfers into this Section and provide regular payments or be paid in a lump sum.

The Scheme is structured as a unitised trust and governed by NZRT's trust deed. The supervisor of the Scheme is The New Zealand Guardian Trust Company Limited (Supervisor). The Scheme's assets are held on trust by the Supervisor or its appointed custodian and, as an investor, you buy 'units' which represent your share in the relevant fund(s).

The Scheme is a 'defined contribution' scheme, which means the benefits payable depend on contributions paid, returns on those contributions, tax, fees, other charges and insurance premiums (if any) deducted. The value of your investment will change during your membership. The difference between the price at which you buy units in a fund and withdraw them is your investment return.

All liabilities incurred in relation to a fund (e.g. the expenses of buying investments for that fund) will be met in the first instance from the assets of that fund. If the assets of a particular fund are insufficient to meet its liabilities then the assets of the other funds within the Scheme may be applied to meet those liabilities.

Joining the Scheme

You can only join this Section if you've been invited to by AMP. If invited, you can choose to join as a personal member, a QROPS member, or both.

Making investments

QROPS members can transfer any UK funds to this Section either directly from UK registered pension schemes or from other QROPS or former QROPS. If you transfer any UK funds to NZRT then you'll be subject to additional terms and conditions as set out in the 'NZRT - Personal Superannuation Section - How does this investment work?' document. A UK overseas transfer charge of 25% of the amount of your UK funds may apply if you're not a New Zealand tax resident when you transfer UK funds to NZRT, or may subsequently apply if your tax residency changes during your NZRT membership. See the 'NZRT - Personal Superannuation Section - How does this investment work?' document, for more information at amp.co.nz/forms. If you intend to transfer foreign superannuation entitlements to NZRT, you should seek independent UK and New Zealand taxation advice.

You can also contribute to this Section by direct debit. The table below sets out how you can make regular or lump-sum contributions.

Contribution type	How to contribute
Regular contributions	Regular contributions can be made by direct debit.
	How to set up a direct debit To set up a direct debit, complete the Direct Debit Authority at amp.co.nz/forms .
	Frequency Choose between weekly, fortnightly, four-weekly, monthly or annually.
	Minimum amount There is currently no minimum amount if you set up a direct debit with us.
Lump-sum contributions	How to make a voluntary lump-sum contribution You can make a voluntary lump-sum contribution by internet banking: to do this enter 'AMP NZ Retirement Trust' – we are pre-registered so our account details will load automatically. Call us if you don't have internet banking.
	Frequency As often as you like.
	Minimum amount There is currently no minimum amount if you wish to make a lump sum contribution.

Your employer may make contributions to your retirement savings depending on the arrangement you have with them. Your employer may deduct Employer Superannuation Contribution Tax (ESCT) from all employer contributions before they are transferred to your account.

If you've joined the Section only as a QROPS member, you'll need to fill out a personal member application form before you or your employer can make contributions to the Section.

We may change our requirements regarding payments at any time. Affected investors will be notified.

QROPS contributions are held in a QROPS sub-account within your member account in this Section. All other contributions are held in your member account.

You may be able to transfer from other registered superannuation or workplace savings schemes. You can't transfer your KiwiSaver scheme savings to NZRT (unless you've reached your KiwiSaver qualifying date).

For more information about contributions, refer to the 'NZRT – Personal Superannuation Section – How does this investment work?' document at amp.co.nz/forms.

Withdrawing your investments

This Section is designed to help you save for retirement, which means you generally can't withdraw your savings until you reach the New Zealand retirement age (currently age 65).

If you're a QROPS member, any withdrawals from the Scheme are considered to be from QROPS funds first, therefore all accounts will be affected by the QROPS Rules until you're entitled to make a withdrawal from your QROPS account. This means you'll be able to make a withdrawal from your other accounts only when you're entitled to make a withdrawal from your QROPS account.

When you reach the retirement age you can make regular or lump-sum withdrawals. All withdrawal benefits are from your savings in this Section only and are after the deduction of fees and taxes owing.

The details are set out in the table below:

Withdrawal type	How to make a withdrawal
Regular withdrawals	<p>How to set up regular withdrawals Complete the 'Withdrawal' form at amp.co.nz/forms.</p> <p>Frequency Choose from fortnightly, monthly or quarterly.</p> <p>Minimum amount Each regular withdrawal must be at least \$250.</p>
Lump-sum or full withdrawal	<p>How to withdraw a lump-sum or full withdrawal Complete the 'Withdrawal' form at amp.co.nz/forms.</p> <p>Frequency As often as you like.</p> <p>Minimum amount Each lump-sum withdrawal must be a minimum of \$500.</p>

If a withdrawal results in your account balance falling below \$1,000 it may be treated as a full withdrawal and your membership in this Section ends. We may change this minimum balance at any time.

Early withdrawals are permitted in the circumstances set out in the table below. If you have a QROPS account these may not apply to you. In particular, you'll not be able to make a significant financial hardship or serious illness withdrawal if that withdrawal doesn't comply with the restrictions noted under 'Withdrawal of UK funds' below.

Early withdrawal	What savings will I be able to withdraw?
Permanent early retirement	The Supervisor is reasonably satisfied that you've permanently retired from business or employment, and have reached an age that is 5 years before the New Zealand retirement age.
Significant financial hardship	If the Supervisor is reasonably satisfied that you're suffering, have suffered, or are likely to suffer from significant financial hardship, then you can withdraw some or all of your savings. The Supervisor may limit the amount able to be withdrawn to an amount that, in its opinion, is required to alleviate the particular hardship.
Serious illness	If the Supervisor is reasonably satisfied that you're suffering from serious illness the amount withdrawn may be up to the full balance of all your accounts.
Transition to retirement	If the Supervisor is reasonably satisfied that you're over 55 and that payments will be made periodically in accordance with the trust deed over an identifiable period of time (i.e. the period between the first payment and you reaching the New Zealand retirement age).
Death	The full balance of all your accounts will be paid to your personal representative.
Release of funds required under other enactments	We may be required to release some or all of your savings under legislation or a Court order.

For more information on the above permitted early withdrawals, refer to the 'NZRT - Personal Superannuation Section - How does this investment work?' document at amp.co.nz/forms.

Your withdrawal will be determined using the unit price applying on a day no later than the next valuation day after your withdrawal request is approved. Valuation days are currently every business day in Wellington and Auckland. You'll normally receive your money into your nominated bank account within eight working days.

There may be a delay in processing withdrawals over 31 March annually due to the finalisation and filing of investors' PIE tax with IRD.

Transfers from this Section

You may at any time (subject to any deferrals in effect or restrictions applying to UK funds), transfer your savings to another superannuation scheme, KiwiSaver scheme, or an equivalent overseas retirement scheme (i.e. a superannuation scheme outside NZ that has the purpose of providing retirement benefits). For more information about transfers, see the 'NZRT – Personal Superannuation Section – How does this investment work?' document at amp.co.nz/forms.

Withdrawal of UK funds

If you transfer UK funds into NZRT you cannot make a withdrawal from those funds until you reach the normal minimum pension age in the UK (currently age 55, increasing to 57 on 6 April 2028) unless you qualify for an early withdrawal. The benefit is the balance of your QROPS account, less all taxes and fees (if any) owing at the date of payment.

Early withdrawals for QROPS accounts are permitted in the circumstances set out in the table below.

Early withdrawal type
Ill-health If you retire due to ill health before age 55 (increasing to 57 on 6 April 2028) and provide us with evidence from a registered medical practitioner that you are, and will continue to be, incapable of carrying on your occupation because of physical or medical impairment
Serious ill-health If we receive evidence from a registered medical practitioner that you're expected to live for less than one year.
Death
Release of funds required under a property sharing order We may be required to release some or all of your savings under a property sharing court order.

When you receive a retirement or ill-health benefit from your QROPS account, 25% of the original amount of your UK funds, along with any returns, will be tax free. You may be liable to pay UK tax on the balance, depending on your tax residency. Based on our understanding of the current law, if you are a New Zealand tax resident, you shouldn't be liable to pay any UK tax on the withdrawal. However, this isn't free from doubt and, in any event, the position can change. Your tax residency depends on your individual circumstances. You should seek advice before making a withdrawal to determine what UK tax, if any, is payable.

UK tax charges may apply to any withdrawal or transfer from your QROPS account which is not authorised by UK legislation. UK tax charges are unlikely to apply because the NZRT allows withdrawals only if it believes that withdrawals are permitted by UK legislation. See the 'NZRT – Personal Superannuation Section – How does this investment work?' document at amp.co.nz/forms.

We may take all steps and do all things (including imposing additional terms and conditions on payments from your QROPS account) we consider necessary or desirable in order to maintain NZRT's QROPS status.

For important information relating to UK funds and withdrawals, see the 'NZRT – Personal Superannuation Section – How does this investment work?' document at amp.co.nz/forms.

Conditions relating to withdrawals

We may defer a withdrawal, transfer out of this Section or switch between funds if we determine that, having regard to the impact of selling assets to complete the transaction, earlier payment or effecting the switch would be imprudent. A deferral may only exceed 90 days if the Supervisor approves.

If we accept a QROPS transfer that is subject to additional specific withdrawal restrictions, then you'll only be able to withdraw the transferred amounts in compliance with those restrictions.

For more information about withdrawals, see the 'NZRT – Personal Superannuation Section – How does this investment work?' document available from amp.co.nz/forms. Forms are available from your Adviser. You'll need to provide all required information in a form acceptable to us before you can make a withdrawal.

How to switch between funds

You can switch your investment to another fund or funds (up to seven, including Lifesteps) at any time, unless a deferral is in effect.

You can switch only your current balance, only your future contributions, or both. It's currently free to switch your fund choice once a year. For more than one switch a year, we may charge a fee, see the 'NZRT - Fees and Other Charges' document available at amp.co.nz/forms.

You can switch by logging into My AMP at online.amp.co.nz or completing the required forms at amp.co.nz/forms. There are no restrictions on the number of switches you can request.

3. Description of your investment option(s)

AMP believes that the target investment mix drives the majority of the returns available in the market. We believe that it is difficult to consistently outperform the market via the adoption of short term active positions, and that keeping investment costs down is an important component of returns. Accordingly, for the "AMP"-branded funds, we will access returns using mainly index management strategies within asset classes.

We also believe investing sustainably will deliver long-term returns in line with or better than the broader market index. We have a clear approach to sustainable investing that avoids investing in companies that are involved in businesses or sectors that are our focus areas in terms of non-sustainability. For more information on the sustainable investment philosophy, refer to amp.co.nz/si.

Target investment mix legend

- Cash and cash equivalents
- NZ fixed interest
- International fixed interest
- Australasian equities
- International equities – developed markets
- International equities – emerging markets
- Other – Direct infrastructure
- Income Assets
- Growth Assets

The following table shows details of the funds used at each stage of Lifesteps. The Other Funds are also offered under this PDS. See the Fund Update Booklet given to you with this PDS for information on those funds.

Fund name and Lifesteps stage	Investment objectives and strategy summary (including target investment mix)	Risk indicator	Minimum suggested investment timeframe
AMP Conservative Fund* (Lifesteps 65+ years)	To achieve modest to medium returns – in exchange there may be small movements up and down in the value of your investments. To provide a well-diversified portfolio that primarily invests in lower-risk income assets with a conservative allocation to growth assets. Target investment mix 		2 years
AMP Moderate Fund* (Lifesteps 57 – 64 years)	To achieve modest to medium returns – in exchange there may be small movements up and down in the value of your investments. To provide a well-diversified portfolio that primarily invests in lower-risk income assets with a moderate allocation to growth assets. Target investment mix 		4 years

Fund name and Lifesteps stage	Investment objectives and strategy summary (including target investment mix)	Risk indicator	Minimum suggested investment timeframe
AMP Moderate Balanced Fund* (Lifesteps 48 – 56 years)	<p>To achieve medium returns – in exchange there will be some movements up and down in the value of your investments.</p> <p>To provide a well-diversified portfolio that has an allocation to growth assets that broadly equals the allocation to lower-risk income assets.</p> <p>Target investment mix</p>	<p>Potentially lower returns ← 1 2 3 4 5 6 7 → Potentially higher returns</p> <p>← Lower risk Higher risk →</p>	4 years
AMP Balanced Fund* (Lifesteps 40 – 47 years)	<p>To achieve medium returns – in exchange there will be some movements up and down in the value of your investments.</p> <p>To provide a well-diversified portfolio that has a balance of risk through holding growth assets and an allocation to lower-risk income assets.</p> <p>Target investment mix</p>	<p>Potentially lower returns ← 1 2 3 4 5 6 7 → Potentially higher returns</p> <p>← Lower risk Higher risk →</p>	4 years
AMP Growth Fund* (Lifesteps 31 – 39 years)	<p>To achieve medium to high returns – in exchange there will be larger movements up and down in the value of your investments.</p> <p>To provide a well-diversified portfolio that aims to provide growth, primarily through holding growth assets diversified with a lower allocation to lower-risk income assets.</p> <p>Target investment mix</p>	<p>Potentially lower returns ← 1 2 3 4 5 6 7 → Potentially higher returns</p> <p>← Lower risk Higher risk →</p>	7 years
AMP Aggressive Fund* (Lifesteps Up to 31 years)	<p>To achieve high returns – in exchange there will be larger movements up and down in the value of your investments.</p> <p>To provide a well-diversified portfolio that aims to provide growth, primarily through holding growth assets. The fund has a low allocation to income assets.</p> <p>Target investment mix</p>	<p>Potentially lower returns ← 1 2 3 4 5 6 7 → Potentially higher returns</p> <p>← Lower risk Higher risk →</p>	10 years

*These funds are offered under Lifesteps and are also available for investment on their own. Under Lifesteps, your savings are invested in one of these funds, which become more conservative as you move through the age bands. Fund changes automatically happen when you reach the birthday that corresponds to the minimum age for the next fund in Lifesteps.

The Statement of Investment Policy and Objectives (SIPO) sets out the investment policies and objectives for each fund. We may change the SIPO for any fund without notifying you. We'll give the Supervisor prior notice of any changes.

The updated SIPO is available, free of charge, from the AMP website at amp.co.nz/forms. Material changes to the SIPO will be described in NZRT's annual report.

Further information about the assets in each fund can be found in the fund updates at amp.co.nz/nzrt-qfu.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

For the filled-in risk indicator for each fund detailed in this PDS, see section 3 'Description of your investment option(s)'. For the filled-in risk indicator for the Other Funds, see the Fund Update Booklet given to you with this PDS.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Note that even the lowest category doesn't mean a risk-free investment, and there are other risks (described under the heading 'Other specific risks') that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 years to 31 December 2023. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund updates for each fund.

General investment risks

Some of the things that may cause the fund's value to move up and down, which affect the risk indicator, are:

Investment risks	Description
Asset allocation risk	Risk of negative or lower than expected returns from the funds' investments in that particular sector, as different assets have different levels and types of risk. For example, equities and property are considered riskier and exposed to more volatile investment returns than cash and fixed interest assets.
Market risk	Risk that the funds' investment return will fluctuate as a result of changes in market conditions. These conditions include economic and regulatory conditions, political events, environmental and technological issues.
Currency risk	Risk that the value of a financial instrument will fluctuate as a result of changes in foreign exchange rates. Investments denominated in foreign currencies will fall if the New Zealand Dollar strengthens against those currencies, all else being equal.
Interest rate risk	Risk that the funds' investment return will fluctuate as a result of changes in interest rates. The funds' exposure to interest rate risk primarily arises from investments in interest-bearing instruments such as cash and bonds, but can also affect property and share investments.
Credit risk	Risk that a borrower may default on their financial obligations, either in whole or in part, under a contract. The impact of this will be a reduction in the level of returns or the full amount of the investment not being recovered.
Liquidity risk	Risk that the funds will experience difficulty in either realising assets or otherwise raising sufficient funds to satisfy their financial obligations. Low liquidity means it may not be possible to sell assets at the desired time at fair value. This will impact the funds' ability to pay withdrawal requests as required.

Other specific risks

There are factors that impact investors' returns that are not reflected in the risk indicators. These risks relate to AMP's investment strategy, including the selection of the underlying fund managers. The underlying fund managers have their own approaches in selecting which investments to buy and sell and there will be times when market conditions result in a particular style doing better than others or not so well, and investors' returns will move up and down accordingly. To reduce this risk, AMP actively monitors both BlackRock and our underlying fund managers to ensure they align to our investment strategy guidelines.

Other specific risks include fund of funds risk, risk of your employer failing to pass on contributions, and risk of QROPS rules applying to other accounts. Details of these, and other general risks, can be found in the 'NZRT - Risks' document on the Scheme's offer register entry at disclose-register.companiesoffice.govt.nz. In addition, risks specific to the Other Funds can be found in the latest fund updates for those funds.

5. What are the fees?

You'll be charged fees for investing in NZRT. Fees are deducted from your investment and will reduce your returns. If AMP invests in other funds, those funds may also charge fees. The fees you pay will be charged in two ways:

- regular charges (for example, annual fund charges). Small differences in these fees can have a big impact on your investment over the long term;
- one-off fees (for example, withdrawal fees).

These are as follows for the funds detailed in this PDS:

Fund	Investment management fee ¹	Administration fee ^{1,2}	Service fee ^{1,3}	Costs and expenses (estimated) ¹	Total annual fund charges (estimated) ¹
AMP Conservative Fund	0.35%	0.80%	0.80%	0.10%	2.05%
AMP Moderate Fund	0.45%	0.80%	0.80%	0.10%	2.15%
AMP Moderate Balanced Fund	0.50%	0.80%	0.80%	0.10%	2.20%
AMP Balanced Fund	0.50%	0.80%	0.80%	0.10%	2.20%
AMP Growth Fund	0.432%	0.80%	0.80%	0.11%	2.14%
AMP Aggressive Fund	0.56%	0.80%	0.80%	0.11%	2.27%

Lifesteps The above funds are also offered in Lifesteps. If you select Lifesteps you'll pay the fee applicable to the fund you're invested in at the time. For example, if you're aged 25, you'll be allocated to the AMP Aggressive Fund and the estimated annual fund charges will be 2.27%.

¹Percentage of net asset value.

²The administration fee may also be referred to as 'Trustee and Administration Fee'.

³The service fee for all funds for members of this Section is 0.80% p.a. although we may agree with you and your Adviser to reduce this.

Description of the above fee categories

Fee	Description	How is the fee paid?
Annual fund charges	Investment management fee Used to pay for the investment management services including the investment manager or underlying fund managers.	Deducted from, and reflected in the unit price of, the funds concerned
	Costs and expenses Includes costs and expenses charged by the underlying fund managers and the expenses incurred in running the fund. These include accounting, audit, regulatory compliance costs and include estimates.	
	Administration fee Used to contribute to the costs of the general administration of NZRT and includes the Supervisor's fee.	Deducted monthly by cashing up some of your units unless agreed otherwise.
	Service fee Used to contribute to the adviser services and ongoing management of the Scheme.	

Fees are disclosed on a before-tax basis. GST will be added to fees and may be included in expenses, where applicable. See the 'NZRT - Fees and Other Charges' document at amp.co.nz/forms for more information.

Individual action fees

There are currently no contribution, establishment or termination fees charged. You may be charged other fees, including switching fees, on an individual basis for investor-specific decisions or actions. Further information is in the 'NZRT - Fees and other charges' document at amp.co.nz/forms.

Example of how fees apply to an investor

Shekar invests \$10,000 in the AMP Balanced Fund. The starting value of his investment is \$10,000. He is charged annual fund charges, which work out to about \$220 (2.20% of \$10,000). These fees might be more or less if his account balance has increased or decreased over the year.

Estimated total fees for the first year

Fund charges: \$220

Other charges: \$Nil

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the AMP Balanced Fund. If you're considering investing in other funds/investment options in the Scheme, this example may not be representative of the actual fees you may be charged.

The fees can be changed

The Supervisor's fee is covered by the annual fund charges. The Supervisor's fee can be changed with AMP's agreement.

Subject to the trust deed we may increase the fees listed above or commence charging any fee not currently charged, by providing prior notice to all affected investors.

AMP must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available at amp.co.nz/nzrt-qfu. Fees information for the Other Funds can be found in those fund updates.

6. What taxes will you pay?

The Scheme is a portfolio investment entity. The amount of tax you pay is based on your prescribed investor rate (PIR). To determine your PIR, go to amp.co.nz/pie. If you're unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department. It's **your** responsibility to tell AMP your PIR when you invest or if your PIR changes. If you don't tell AMP, a default rate may be applied. If the rate applied to your PIE income is lower than your correct PIR, you will be required to pay any tax shortfall as part of the income tax year-end process. If the rate applied to your PIE income is higher than your PIR, any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount will be refunded to you.

For more information about the tax consequences (including tax in relation to the Declared Rate Fund), see the 'NZRT - Tax' document at amp.co.nz/forms.

7. Who is involved?

About AMP Wealth Management New Zealand Limited

Details about AMP are in the 'NZRT – Who is involved?' document on the Scheme's offer register at disclose-register.companiesoffice.govt.nz.

8. How to complain

You can lodge a complaint as follows:

Website: amp.co.nz
Email: customerresponse@amp.co.nz
Telephone: 0800 800 267, Monday to Friday 9am – 5pm
Post: Customer Response Manager
AMP Wealth Management New Zealand Limited
Freepost 170, PO Box 55, Shortland Street, Auckland 1140

If you've reached the end of our internal complaints process without your complaint being resolved, you can complain to our dispute resolution scheme, the Insurance & Financial Services Ombudsman Scheme by:

Telephone: 0800 888 202
Email: info@ifso.nz
Post: PO Box 10-845
Wellington 6143

You can also make a complaint to the Supervisor:

Telephone: 0800 300 299
Email: ct-wellington@nzgt.co.nz
Post: Senior Relationship Manager, Corporate Trusts
The New Zealand Guardian Trust Company Limited
PO Box 3845
Wellington 6140

If you've reached the end of the Supervisor's internal complaints process without your complaint being resolved, you can complain to the Supervisor's dispute resolution scheme, Financial Services Complaints Limited by:

Telephone: 0800 347 257
Email: complaints@fscl.org.nz
Post: PO Box 5967
Wellington 6140

There's no fee for either dispute resolution scheme to investigate/resolve complaints.

9. Where you can find more information

Further information relating to the Scheme, including financial statements, annual reports, fund updates, the trust deed, and SIPO, is on the offer register and scheme register at disclose-register.companiesoffice.govt.nz. A copy of information on the offer register and scheme register is available on request to the Registrar of Financial Service Providers.

Once your application has been completed, you can manage and view your account on the 'MyAMP NZ' app or AMP's online web service, MyAMP, at online.amp.co.nz.

Other general information is available at amp.co.nz/nzrt or on request to AMP.

10. How to apply

Membership to the New Zealand Retirement Trust - Personal Superannuation Section is by invitation from AMP. On invitation to join you'll be asked to complete the Personal Superannuation Application Form or QROPS Application Form available from your Adviser.
