

## Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2017<sup>1</sup>.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the AMP Cash Fund are charged fund charges<sup>2</sup>. In the year to 30 June 2017 these were:

	% of net asset value
<b>Total fund charges (estimated)</b>	0.73%
Which are made up of -	
<b>Total management and administration charges (estimated)</b>	0.73%
Including -	
Manager's basic fee (estimated) <sup>3</sup>	0.53%
Other management and administration charges (estimated) <sup>3,4</sup>	0.20%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	Dollar amount per investor or description of how charge is calculated
Member fee <sup>5</sup>	\$107.52

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the New Zealand Retirement Trust maintained on the offer register ([companiesoffice.govt.nz/disclose](http://companiesoffice.govt.nz/disclose)) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$125.00 (that is 1.25% of his initial \$10,000). Craig also paid \$107.52 in other charges. This gives Craig a total return after tax of \$17.48 for the year.

## Further information

You can also obtain this information, the PDSs for the New Zealand Retirement Trust, and some additional information from the offer register at [companiesoffice.govt.nz/disclose](http://companiesoffice.govt.nz/disclose). The information in this fund update forms part of each PDS for the New Zealand Retirement Trust.

## Notes

- 1 The returns include an estimated administration and service fee, which has been determined by using the average fee charged for the entire NZRT. Individual returns will depend on the administration and service fee applicable to the individual member. For more information relating to the administration and service fee applicable to you, please see the applicable PDS or the Member Booklet for your employer plan.
- 2 The management and administration charges are made up of the Manager's basic fee (comprising the investment management fee and administration fee) and the other management and administration charges (service fee and costs and expenses). The amounts stated in this fund update are the actual amounts charged to the fund (or estimated to be charged to the fund – see estimate notes below). However, the fees payable by any member will depend on the section of the Scheme they are a member of (including whether they are a member of the Scheme through an employer plan), and whether any reduction of the fee amounts has been agreed. Please see the 'fees and other charges' document on the entry relating to the offer of interests in the New Zealand Retirement Trust maintained on the offer register ([companiesoffice.govt.nz/disclose](http://companiesoffice.govt.nz/disclose)), with your Member Booklet (if you are a member of an employer plan), to work out your fees.
- 3 The total fund charges include administration fees and service fees that while calculated by reference to investment balances are not allocated to specific funds. As the actual amount of the fees charged to the fund cannot be reported, estimates have been used. The estimate for the administration fee is 0.33% and the estimate for the service fee is 0.04%. The estimates represent the percentage of the fees deducted from the funds that have been in existence for the complete financial year over the average funds under management of those funds for the year.
- 4 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 5 You may receive the benefit of reduced member fees. For details of any discounts, please speak with your adviser or see your Member Booklet (if you are an investor through an employer plan). Members of the NZRT Personal Superannuation Section are not currently charged member fees. Therefore the impact of these fees on you could be less than that set out in the example.
- 6 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
