

New Zealand Retirement Trust

AMP Property Fund

Fund Update

for the quarter ended 31 December 2017

This fund update was first made publicly available on 13 February 2018

What is the purpose of this update?

This document tells you how the AMP Property Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund that aims to achieve long term capital growth through exposure to listed property and other property securities in New Zealand and around the world.

Total value of the fund	\$11,013,289
Number of investors in the fund	332
The date the fund started	25 November 2013

What are the risks of investing?

Risk indicator for the AMP Property Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Past year ²
Annual return (after deductions for charges and tax)	9.33%
Annual return (after deductions for charges but before tax)	10.16%
Market index annual return (reflects no deduction for charges and tax)	10.58%

The market index annual return is based on 40% S&P/ NZX All Real Estate (Industry Group) Gross with Imputation (100% hedged to NZD) , 10% S&P/ASX 200 A-REIT (Sector) (TR) (100% hedged to NZD) and 50% FTSE EPRA/NAREIT Developed Index Net TRI (100% hedged to NZD). Additional information about the market index is available on the offer register at companiesoffice.govt.nz/disclose. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2017².

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Property Fund are charged fund charges³. In the year to 30 June 2017 these were:

	% of net asset value
Total fund charges (estimated)	1.10%
Which are made up of -	
Total management and administration charges (estimated)	1.10%
Including -	
Manager's basic fee (estimated) ⁴	0.84%
Other management and administration charges (estimated) ^{4,5}	0.26%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee ⁶	\$107.52

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the New Zealand Retirement Trust maintained on the offer register (companiesoffice.govt.nz/disclose) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$933.00 (that is 9.33% of his initial \$10,000). Craig also paid \$107.52 in other charges. This gives Craig a total return after tax of \$825.48 for the year.

What does the fund invest in?

Actual investment mix⁷

This shows the types of assets that the fund invests in.

Target investment mix

This shows the mix of assets that the fund generally intends to invest in.

Asset Type	Allocation
Cash and cash equivalents	0.00%
New Zealand fixed interest	0.00%
International fixed interest	0.00%
Australasian equities	0.00%
International equities	0.00%
Listed property	100.00%
Unlisted property	0.00%
Commodities	0.00%
Other	0.00%

Top 10 investments⁷

Name	Percentage of fund net assets	Asset Type	Country	Credit rating (if applicable)
1 Kiwi Property Group Ltd	9.43%	Listed property	New Zealand	N/A
2 Precinct Properties New Zealand Ltd	6.43%	Listed property	New Zealand	N/A

Further information

You can also obtain this information, the PDSs for the New Zealand Retirement Trust, and some additional information from the offer register at companiesoffice.govt.nz/disclose. The information in this fund update forms part of each PDS for the New Zealand Retirement Trust.

Notes

- 1 As the fund started on the date above, actual returns for the last five years are not available. To calculate the risk indicator for the five year period up to the date of this fund update a combination of market index returns, underlying fund returns and actual returns have been used where relevant. We consider this to be the most accurate way to calculate returns and as a result of this calculation, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 The returns include an estimated administration and service fee, which has been determined by using the average fee charged for the entire NZRT. Individual returns will depend on the administration and service fee applicable to the individual member. For more information relating to the administration fee applicable to you, please see the applicable PDS or the Member Booklet for your employer plan.
- 3 The management and administration charges are made up of the Manager's basic fee (comprising the investment management fee and administration fee) and the other management and administration charges (service fee and costs and expenses). The amounts stated in this fund update are the actual amounts charged to the fund (or estimated to be charged to the fund – see estimate notes below). However, the fees payable by any member will depend on the section of the Scheme they are a member of (including whether they are a member of the Scheme through an employer plan), and whether any reduction of the fee amounts has been agreed. Please see the 'fees and other charges' document on the entry relating to the offer of interests in the New Zealand Retirement Trust maintained on the offer register (companiesoffice.govt.nz/disclose), with your Member Booklet (if you are a member of an employer plan), to work out your fees.
- 4 The total fund charges include administration fees and service fees that while calculated by reference to investment balances are not allocated to specific funds. As the actual amount of the fees charged to the fund cannot be reported, estimates have been used. The estimate for the administration fee is 0.33% and the estimate for the service fee is 0.04%. The estimates represent the percentage of the fees deducted from the funds that have been in existence for the complete financial year over the average funds under management of those funds for the year.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 6 You may receive the benefit of reduced member fees. For details of any discounts, please speak with your adviser or see your Member Booklet (if you are an investor through an employer plan). Members of the NZRT Personal Superannuation Section are not currently charged member fees. Therefore the impact of these fees on you could be less than that set out in the example.
- 7 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
