

What fees are investors charged?

Investors in the ASB Growth Fund are charged fund charges². Our estimate of the fund charges as at 30 June 2017 are:

	% of net asset value
Total fund charges (estimated)³	1.09%
Which are made up of -	
Total management and administration charges (estimated)	1.09%
Including -	
Manager's basic fee (estimated) ⁴	0.83%
Other management and administration charges (estimated) ^{4,5}	0.26%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee ⁶	\$107.52

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the New Zealand Retirement Trust maintained on the offer register (companiesoffice.govt.nz/disclose) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$1,232.00 (that is 12.32% of his initial \$10,000). Craig also paid \$107.52 in other charges. This gives Craig a total return after tax of \$1,124.48 for the year.⁷

Notes

- 1 As the fund started on the date above, actual returns for the last five years are not available. To calculate the risk indicator up to the date of this fund update a combination of market index returns and actual returns have been used. Market index returns have been used up until 31 July 2016 and actual returns up to the date of this fund update to make five years of history of returns. We consider this is the most reasonable method available. As a result of this method being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 The management and administration charges are made up of the Manager's basic fee (comprising the investment management fee and administration fee) and the other management and administration charges (service fee and costs and expenses). The amounts stated in this fund update are the actual amounts charged to the fund (or estimated to be charged to the fund – see estimate notes below). However, the fees payable by any member will depend on the section of the Scheme they are a member of (including whether they are a member of the Scheme through an employer plan), and whether any reduction of the fee amounts has been agreed. Please see the 'fees and other charges' document on the entry relating to the offer of interests in the New Zealand Retirement Trust maintained on the offer register (companiesoffice.govt.nz/disclose), with your Member Booklet (if you are a member of an employer plan), to work out your fees.
- 3 As the fund started on the date above, historic information for the most recent scheme year is not available. The total fund charges shown include our best estimates of the amount of costs and expenses that will be charged to the fund. These have been estimated as a percentage of the fund's net asset value and include both expenses expected to be incurred by the fund and fees (and costs) expected to be charged by the managers of the underlying funds in which the fund invests. These fees have been determined using estimates provided by the underlying fund managers and our experience with the Scheme.
- 4 The total fund charges include administration fees and services fees that while calculated by reference to investment balances are not allocated to specific funds. As the actual amount of the fee charged to the fund cannot be reported, estimates have been used. The estimate for the administration fee is 0.33% and the estimate for the services fee is 0.04%. The estimates represent the percentage of the fees deducted from the Scheme for the year over the average funds under management for the Scheme for the year.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 6 If you are a member through an employer plan, you may receive the benefit of reduced member fees – please see your Member Booklet for details of any discounts. Members of the NZRT Personal Superannuation Section are not currently charged member fees. Therefore the impact of these fees on you could be less than that set out in the example.
- 7 As the fund started on the date above, this calculation is based on the market index return for the past year and treats all investment returns as taxable.
- 8 The top ten investments and actual investment mix have been calculated excluding cash and cash equivalents held for operational purposes.
