Further information

You can also obtain this information, the PDSs for the New Zealand Retirement Trust, and some additional information from the offer register at companiesoffice.govt.nz/disclose.

Notes

- ¹ As the fund started on the date above, actual returns for the last five years are not available. To calculate the risk indicator a combination of actual returns and market returns have been used. Actual returns have been used from the start of the month after the fund started, and market returns have been used to complete the five year period. As a result of market returns being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- ² The top ten investments and actual investment mix have been calculated excluding cash and cash equivalents held for operational purposes.
