

Fund Update

for the quarter ended 31 December 2023

This fund update was first made publicly available on 12 February 2024

What is the purpose of this update?

This document tells you how the SuperLife Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund's returns are generally expected to be higher than the SuperLife Moderate Fund but lower than the SuperLife Growth Fund. The fund aims to provide moderate to high total returns allowing for moderate to high movements in value up and down.

Total value of the fund	\$91,742,067
Number of investors in the fund	2299
The date the fund started	21 September 2000

What are the risks of investing?

Risk indicator for the SuperLife Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years ^{1, 2}	Past year ¹
Annual return (after deductions for charges and tax)	5.22%	10.26%
Annual return (after deductions for charges but before tax)	5.73%	11.22%
Market index annual return (reflects no deduction for charges and tax)	6.39%	10.73%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph^{1, 2}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 December 2023.¹

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the SuperLife Balanced Fund are charged fund charges. In the year to 30 June 2023 these were:

	% of net asset value
Total fund charges (estimated) ³	0.74%
Which are made up of -	
Total management and administration charges (estimated)	0.74%
Including -	
Manager’s basic fee (estimated) ⁴	0.63%
Other management and administration charges (estimated) ^{4, 5}	0.11%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee ⁶	\$107.52

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the New Zealand Retirement Trust maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$1,026.00 (that is 10.26% of his initial \$10,000). Craig also paid \$107.52 in other charges. This gives Craig a total return after tax of \$918.48 for the year.

Notes

- 1 The returns include an estimated administration and service fee, which has been determined by using the average fee charged for the entire NZRT. Individual returns will depend on the administration and service fee applicable to the individual member. For more information relating to the administration and service fee applicable to you, please see the applicable PDS or the Member Booklet for your employer plan.
- 2 From 11 February 2022, Smartshares Limited (Smartshares) replaced ASB Group Investments Limited (ASB) as the underlying fund manager for this fund. From 28 August 2023, Smartshares replaced ASB as the investment manager of this fund and the transition from ASB to Smartshares is now complete. The fund performance in the table therefore shows fund performance which relates to both Smartshares and ASB.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 The management and administration charges are made up of the 'Manager's basic fee' (comprising the investment management fee and administration fee) and the 'other management and administration charges' (service fee and costs and expenses). Administration fees and service fees, while calculated by reference to investment balances, are not allocated to specific funds. As the actual amount of the fees charged to the fund can't be reported, estimates have been used. The estimated administration fee is 0.28% and the estimated service fee is 0.04%. The estimates represent the percentage of the fees deducted from the Scheme for the year over the average funds under management for the Scheme for the year. Fees payable by a member will depend on the section of the Scheme they are a member of (including whether they are a member of an employer plan) and whether any reduction of the fee amount has been agreed. Please see the NZRT - Fees and Other Charges document at amp.co.nz/amp/forms or on the Offer Register at disclose-register.companiesoffice.govt.nz, and your Member Booklet (if you are a member of an employer plan), to work out your fees.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 6 You may receive the benefit of reduced member fees. For details of any discounts, please speak with your adviser or see your Member Booklet (if you are a member through an employer plan). Members of the NZRT Personal Superannuation Section are not currently charged member fees. Therefore the impact of these fees on you could be less than that set out in the example.
- 7 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
