

Fund Update

for the quarter ended 30 June 2023

This fund update was first made publicly available on 31 July 2023

What is the purpose of this update?

This document tells you how the Mercer Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund invests in a wide range of assets which may be suitable for long-term investors who want a diversified investment with exposure to shares, real assets, alternative assets, fixed interest and cash. The fund aims to achieve enhanced longer term returns from the 60% benchmark allocation to growth assets.

Total value of the fund	\$129,465,592
Number of investors in the fund	3031
The date the fund started	27 January 2004

What are the risks of investing?

Risk indicator for the Mercer Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years ^{1, 2, 3}	Past year ^{2, 3}
Annual return (after deductions for charges and tax)	3.42%	5.20%
Annual return (after deductions for charges but before tax)	3.97%	5.77%

Annual return graph^{1, 2, 3, 4}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 June 2023.³

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Mercer Balanced Fund are charged fund charges. In the year to 30 June 2022 these were:

% of net asset value	
Total fund charges (estimated) ⁵	1.01%
Which are made up of -	
Total management and administration charges (estimated)	1.01%
Including -	
Manager's basic fee (estimated) ⁶	0.88%
Other management and administration charges (estimated) ^{6, 7}	0.13%
Total performance-based fees	0.00%
Dollar amount per investor or description of how charge is calculated	
Other charges	
Member fee ⁸	\$107.52

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the New Zealand Retirement Trust maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$520.00 (that is 5.20% of his initial \$10,000). Craig also paid \$107.52 in other charges. This gives Craig a total return after tax of \$412.48 for the year.

Currency hedging

The fund will (or will invest in underlying funds that will):

- fully hedge (after tax for a 28% PIR investor) foreign currency exposure arising from International fixed interest back to New Zealand dollars;
- hedge the foreign currency exposure arising from Listed and Unlisted property, Listed and Unlisted infrastructure and Commodities 100% net hedged (for a 28% PIR investor) back to New Zealand dollars; and
- hedge the foreign currency exposure arising from International equities (excluding Listed infrastructure) with a benchmark of 50% net hedged (for a 28% PIR investor) back to New Zealand dollars and a permitted range of 0% to 100%. Proxy hedging (i.e. using the currency of a country as a proxy for the currency of another country) is also permitted.

Where active currency management is being employed in accordance with the Active Currency Management Policy set out in the Statement of Investment Policy and Objectives, the result may be something other than a fully-hedged position for International fixed interest.

Notes

- 1 From 25 June 2018 Mercer (N.Z.) Limited (Mercer) replaced Fisher Funds Management Limited (Fisher) as the underlying fund manager of the Fund. The fund performance in the table therefore shows fund performance which relates to both Mercer and Fisher.
- 2 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.
- 3 The returns include an estimated administration and service fee, which has been determined by using the average fee charged for the entire NZRT. Individual returns will depend on the administration and service fee applicable to the individual member. For more information relating to the administration and service fee applicable to you, please see the applicable PDS or the Member Booklet for your employer plan.
- 4 From Q1 2021, the methodology used to calculate the index return now uses daily returns, rather than monthly returns. As a result there will be a change in the index return for the years ended 31 March 2019 and 31 March 2020, compared with those shown in previous fund updates.
- 5 The total fund charges are inclusive of any applicable GST.
- 6 The management and administration charges are made up of the 'Manager's basic fee' (comprising the investment management fee and administration fee) and the 'other management and administration charges' (service fee and costs and expenses). Administration fees and service fees, while calculated by reference to investment balances, are not allocated to specific funds. As the actual amount of the fees charged to the fund can't be reported, estimates have been used. The estimated administration fee is 0.28% and the estimated service fee is 0.04%. The estimates represent the percentage of the fees deducted from the Scheme for the year over the average funds under management for the Scheme for the year. Fees payable by a member will depend on the section of the Scheme they are a member of (including whether they are a member of an employer plan) and whether any reduction of the fee amount has been agreed. Please see the NZRT - Fees and Other Charges document at amp.co.nz/amp/forms or on the Offer Register at disclose-register.companiesoffice.govt.nz, and your Member Booklet (if you are a member of an employer plan), to work out your fees.
- 7 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 8 You may receive the benefit of reduced member fees. For details of any discounts, please speak with your adviser or see your Member Booklet (if you are a member through an employer plan). Members of the NZRT Personal Superannuation Section are not currently charged member fees. Therefore the impact of these fees on you could be less than that set out in the example.
- 9 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
