

Fund Update

for the quarter ended 30 September 2024

This fund update was first made publicly available on 29 October 2024

What is the purpose of this update?

This document tells you how the AMP Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund which primarily invests in cash and short-term deposits. The fund aims to achieve modest, stable returns with a very low level of investment risk, in exchange there should be no significant short-term movements up and down in the value of your investments.

Total value of the fund	\$71,236,923
Number of investors in the fund	1305
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the AMP Cash Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Average over past 5 years ^{1, 2}	Past year ²
Annual return (after deductions for charges and tax)	1.58%	3.79%
Annual return (after deductions for charges but before tax)	2.20%	5.30%
Market index annual return (reflects no deduction for charges and tax)	2.66%	5.78%

The market index annual return is based on the Bloomberg NZBond Bank Bill Index. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph^{1, 2}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2024.²

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Cash Fund are charged fund charges. In the year to 30 June 2024 these were:

% of net asset value	
Total fund charges (estimated) ³	0.58%
Which are made up of -	
Total management and administration charges (estimated)	0.58%
Including -	
Manager’s basic fee (estimated) ⁴	0.47%
Other management and administration charges (estimated) ^{4, 5}	0.11%
Total performance-based fees	0.00%
Dollar amount per investor or description of how charge is calculated	
Other charges	
Member fee ⁶	\$107.52

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'Other Material Information' document on the entry relating to the offer of interests in the New Zealand Retirement Trust maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$379.00 (that is 3.79% of his initial \$10,000). Craig also paid \$107.52 in other charges. This gives Craig a total return after tax of \$271.48 for the year.

What does the fund invest in?

Actual investment mix⁷

This shows the types of assets that the fund invests in.

Target investment mix

This shows the mix of assets that the fund generally intends to invest in.

* Resigned from all current positions effective from 1 October 2024.

Further information

You can also obtain this information, the PDSs for the New Zealand Retirement Trust, and some additional information from the offer register at disclose-register.companiesoffice.govt.nz.

Notes

- 1
- From 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital), now known as Macquarie Asset Management (NZ) Limited (Macquarie), as the underlying fund manager for this fund. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock Investment Management (Australia) Limited) and AMP Capital, now known as Macquarie.
- 2
- The returns include an estimated administration and service fee, which has been determined by using the average fee charged for the entire NZRT. Individual returns will depend on the administration and service fee applicable to the individual member. For more information relating to the administration and service fee applicable to you, please see the applicable PDS or the Member Booklet for your employer plan.
- 3
- The total fund charges are inclusive of any applicable GST.
- 4
- The management and administration charges are made up of the 'Manager's basic fee' (comprising the investment management fee and administration fee) and the 'other management and administration charges' (service fee and costs and expenses). Administration fees and service fees, while calculated by reference to investment balances, are not allocated to specific funds. As the actual amount of the fees charged to the fund can't be reported, estimates have been used. The estimated administration fee is 0.28% and the estimated service fee is 0.04%. The estimates represent the percentage of the fees deducted from the Scheme for the year over the average funds under management for the Scheme for the year. Fees payable by a member will depend on the section of the Scheme they are a member of (including whether they are a member of an employer plan) and whether any reduction of the fee amount has been agreed. Please see the NZRT - Product Disclosure Statement at amp.co.nz/amp/forms or on the Offer Register at disclose-register.companiesoffice.govt.nz, and your Member Booklet (if you are a member of an employer plan), to work out your fees.
- 5
- The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 6
- You may receive the benefit of reduced member fees. For details of any discounts, please speak with your adviser or see your Member Booklet (if you are a member through an employer plan). Members of the NZRT Personal Superannuation Section are not currently charged member fees. Therefore the impact of these fees on you could be less than that set out in the example.
- 7
- The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
