

Fund Update

for the quarter ended 31 December 2025

This fund update was first made publicly available on 12 February 2026

What is the purpose of this update?

This document tells you how the Milford Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

To provide a diversified portfolio that primarily invests in fixed interest securities, with a moderate allocation to equities. The fund's objective is to achieve moderate returns and protect capital over the minimum recommended investment timeframe. While conservative in nature, the fund may experience short term negative returns, particularly in times of heightened volatility.

Total value of the fund	\$17,597,099
Number of investors in the fund	189
The date the fund started	23 February 2022

What are the risks of investing?

Risk indicator for the Milford Conservative Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler. Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating. This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year ²
Annual return (after deductions for charges and tax)	4.24%
Annual return (after deductions for charges but before tax)	4.88%
Market index annual return (reflects no deduction for charges and tax)	6.54%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph²

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2025.²

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Milford Conservative Fund are charged fund charges. In the year to 30 June 2025 these were:

% of net asset value	
Total fund charges (estimated)³	1.42%
Which are made up of -	
Total management and administration charges (estimated)	1.42%
Including -	
Manager's basic fee (estimated) ⁴	1.34%
Other management and administration charges (estimated) ^{4, 5}	0.08%
Total performance-based fees	0.00%
Other charges	
Dollar amount per investor or description of how charge is calculated	
Member fee ⁶	\$107.52

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'Other Material Information' document on the entry relating to the offer of interests in the New Zealand Retirement Trust maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$424.00 (that is 4.24% of his initial \$10,000). Craig also paid \$107.52 in other charges. This gives Craig a total return after tax of \$316.48 for the year.

What does the fund invest in?

Actual investment mix⁷

This shows the types of assets that the fund invests in.

Target investment mix⁸

This shows the mix of assets that the fund generally intends to invest in.

Further information

You can also obtain this information, the PDSs for the New Zealand Retirement Trust, and some additional information from the offer register at disclose-register.companiesoffice.govt.nz.

Notes

- 1 As the fund started on 23 February 2022, actual returns for the last five years are not available. To calculate the risk indicator for the five year period up to the date of this fund update, a combination of market index returns, underlying fund returns and actual returns have been used where relevant. We consider this to be the most appropriate way to calculate the risk indicator, but as a result of this calculation, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund than it would if actual returns for the last five years were able to be used.
- 2 The returns include an estimated administration and service fee, which has been determined by using the average fee charged for the entire NZRT. Individual returns will depend on the administration and service fee applicable to the individual member. For more information relating to the administration and service fee applicable to you, please see the applicable PDS or the Member Booklet for your employer plan.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 The management and administration charges are made up of the 'Manager's basic fee' (comprising the investment management fee and administration fee) and the 'other management and administration charges' (service fee and costs and expenses). Administration fees and service fees, while calculated by reference to investment balances, are not allocated to specific funds. As the actual amount of the fees charged to the fund can't be reported, estimates have been used. The estimated administration fee is 0.27% and the estimated service fee is 0.05%. The estimates represent the percentage of the fees deducted from the Scheme for the year over the average funds under management for the Scheme for the year. Fees payable by a member will depend on the section of the Scheme they are a member of (including whether they are a member of an employer plan) and whether any reduction of the fee amount has been agreed. Please see the NZRT - Product Disclosure Statement at amp.co.nz/amp/forms or on the Offer Register at disclose-register.companiesoffice.govt.nz, and your Member Booklet (if you are a member of an employer plan), to work out your fees.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 6 You may receive the benefit of reduced member fees. For details of any discounts, please speak with your adviser or see your Member Booklet (if you are a member through an employer plan). Members of the NZRT Personal Superannuation Section are not currently charged member fees. Therefore the impact of these fees on you could be less than that set out in the example.
- 7 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
- 8 The table reflects the funds target investment mix and may differ from the benchmark asset allocation stated in the Statement of Investment Policy and Objectives.
