

## Annual return graph<sup>1, 2, 3</sup>

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2026.<sup>3</sup>

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the AMP Moderate Balanced Fund (Lifesteps) are charged fund charges. In the year to 30 June 2025 these were:

	% of net asset value
<b>Total fund charges (estimated)<sup>4</sup></b>	0.90%
Which are made up of -	
<b>Total management and administration charges (estimated)</b>	0.90%
Including -	
Manager's basic fee (estimated) <sup>5</sup>	0.77%
Other management and administration charges (estimated) <sup>5, 6</sup>	0.13%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	Dollar amount per investor or description of how charge is calculated
Member fee <sup>7</sup>	\$107.52

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'Other Material Information' document on the entry relating to the offer of interests in the New Zealand Retirement Trust maintained on the offer register ([disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz)) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$775.00 (that is 7.75% of his initial \$10,000). Craig also paid \$107.52 in other charges. This gives Craig a total return after tax of \$667.48 for the year.

## Notes

- 1 From 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital), now known as Macquarie Asset Management (NZ) Limited (Macquarie), as the underlying fund manager for this fund. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock Investment Management (Australia) Limited) and AMP Capital, now known as Macquarie.
- 2 From 12/02/2024 we have used a composite index to calculate market index returns for all asset classes with the exception of Other – Direct Infrastructure where no index is available. Between 30/09/2021 and 12/02/2024 we used a composite index to calculate market index returns. Prior to 30/09/2021 we used a composite of market indices and peer group for relevant asset classes. A composite index is calculated using the target investment mix weightings of the underlying appropriate market indices and where applicable, peer group indices for the asset classes that the fund invested into. The return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. A composite index may be a less reliable indicator of performance than an appropriate market index.
- 3 The returns include an estimated administration and service fee, which has been determined by using the average fee charged for the entire NZRT. Individual returns will depend on the administration and service fee applicable to the individual member. For more information relating to the administration and service fee applicable to you, please see the applicable PDS or the Member Booklet for your employer plan.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The management and administration charges are made up of the 'Manager's basic fee' (comprising the investment management fee and administration fee) and the 'other management and administration charges' (service fee and costs and expenses). Administration fees and service fees, while calculated by reference to investment balances, are not allocated to specific funds. As the actual amount of the fees charged to the fund can't be reported, estimates have been used. The estimated administration fee is 0.27% and the estimated service fee is 0.05%. The estimates represent the percentage of the fees deducted from the Scheme for the year over the average funds under management for the Scheme for the year. Fees payable by a member will depend on the section of the Scheme they are a member of (including whether they are a member of an employer plan) and whether any reduction of the fee amount has been agreed. Please see the NZRT - Product Disclosure Statement at [amp.co.nz/amp/forms](https://amp.co.nz/amp/forms) or on the Offer Register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz), and your Member Booklet (if you are a member of an employer plan), to work out your fees.
- 6 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 7 You may receive the benefit of reduced member fees. For details of any discounts, please speak with your adviser or see your Member Booklet (if you are a member through an employer plan). Members of the NZRT Personal Superannuation Section are not currently charged member fees. Therefore the impact of these fees on you could be less than that set out in the example.
- 8 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
