

AMP Personal Retirement Plan

NZ Cash

Fund Update

for the period ended 31 December 2017

This fund update was first made publicly available on 29 March 2018

What is the purpose of this update?

This document tells you how the NZ Cash fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

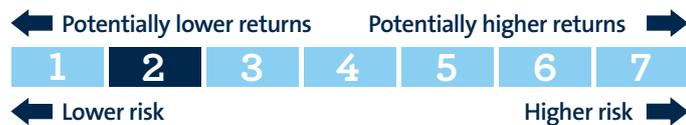

Description of this fund

The fund primarily invests in cash and short-term deposits. The fund aims to achieve modest, stable returns with a very low level of investment risk, in exchange there should be no significant short term movements up and down in the value of your investments.

Total value of the fund	\$11,393,851
Number of investors in the fund	480
The date the fund started	11 November 2002

What are the risks of investing?

Risk indicator for the NZ Cash fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

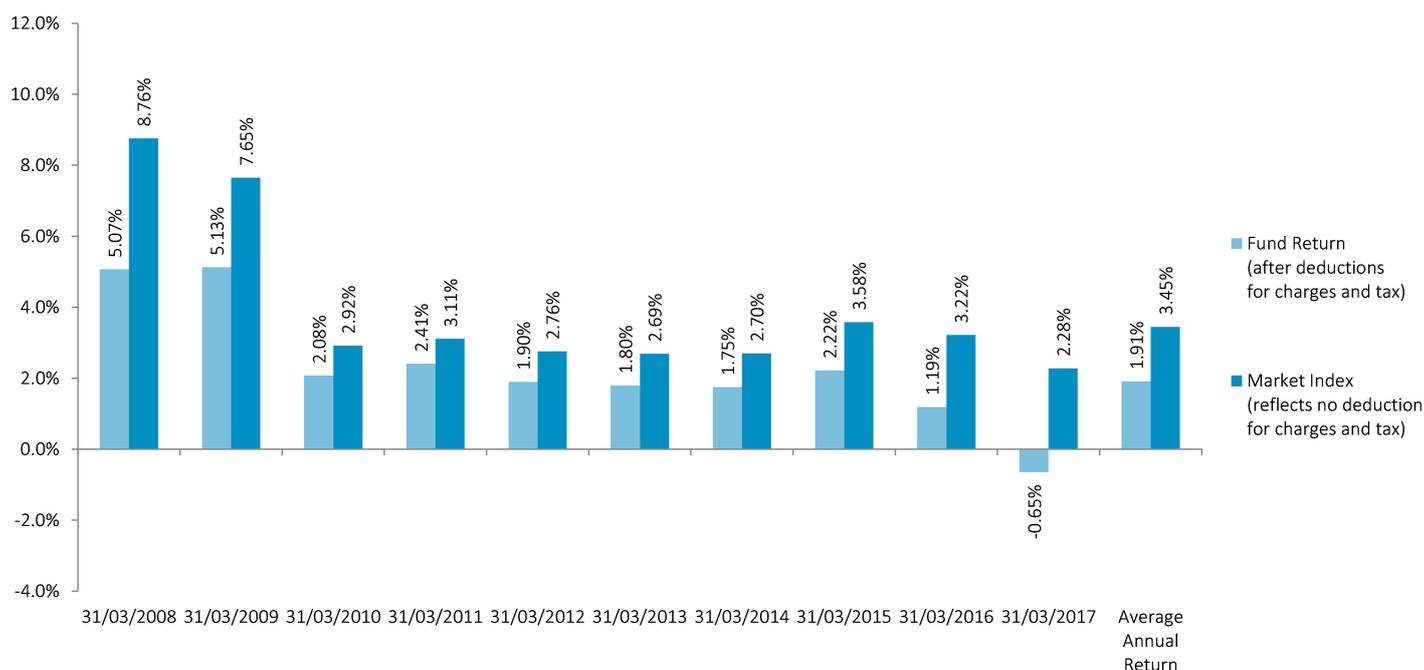

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Average over past 5 years ¹	Past year ¹
Annual return (after deductions for charges and tax)	1.02%	0.14%
Annual return (after deductions for charges but before tax)	1.52%	0.34%
Market index annual return (reflects no deduction for charges and tax)	2.78%	1.98%

The market index annual return is based on the Bloomberg NZBond Bank Bill Index. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph²

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 December 2017.

Important: This does not tell you how the fund will perform in the future.

What fees are investors charged?

Investors in the NZ Cash fund are charged fund charges. In the year to 31 December 2017 these were:

	% net asset value
Total fund charges (estimated)³	2.09%
Which are made up of -	
Total management and administration charges (estimated)	2.09%
Including -	
Manager's basic fee	1.95%
Other management and administration charges (estimated) ⁴	0.14%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated

NIL

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). We may deduct a contribution fee of up to 5% of each payment for the purchase of units. This fee is agreed between you and your Adviser and is deducted from the amount contributed.

Small differences in fees and charges can have a big impact on your investment over the long term.

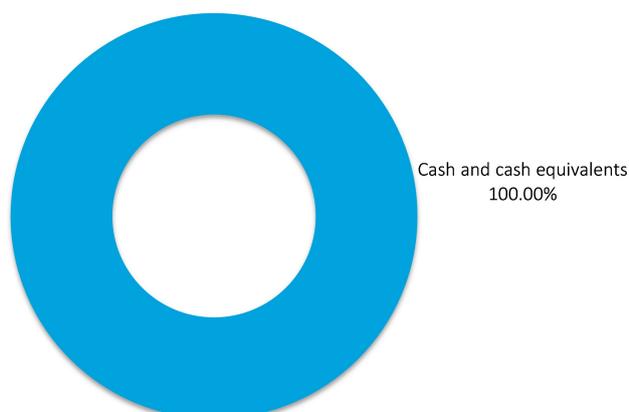

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$14.00 (that is 0.14% of his initial \$10,000). Craig also paid \$0.00 in other charges. This gives Craig a total return after tax of \$14.00 for the year.

What does the fund invest in?

Actual investment mix⁵

This shows the types of assets that the fund invests in.

Target investment mix

This shows the mix of assets that the fund generally intends to invest in.

Further information

You can also obtain this information and some additional information from the offer register at disclose-register.companiesoffice.govt.nz.

Notes

- 1 The returns include any rebates of management fees which have been paid to qualifying investors. No allowance has been made for any loyalty bonus which certain investors may be entitled to.
- 2 The returns shown for 2016 have been impacted as a result of a tax liability associated with the provision of the loyalty bonus (a feature of the scheme). This has resulted in a downward adjustment in unit prices and will affect the comparability of the 2016 returns against other years.
- 3 The total fund charges exclude loyalty bonuses which have been paid to certain members and the cost of future tax obligations on loyalty bonuses.
- 4 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 5 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
- 6 Simon John Hoole has not been named as a key person in the previous fund update for the fund as he was appointed on 2 February 2017.
