The date the fund started	30 August 1996

What are the risks of investing?

Risk indicator for the AMP Australasian Shares Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Average over past 5 years ¹	Past year
Annual return (after deductions for charges and tax)	4.43%	-5.02%
Annual return (after deductions for charges but before tax)	4.33%	-4.95%
Market index annual return (reflects no deduction for charges and tax)	8.76%	-1.33%

The market index annual return is based on 70% S&P/NZX 50 Index Gross with Imputation and 30% MSCI Australian Shares All Cap 300 ex Select GICS ex Select Securities Custom ESG 100% Hedged to NZD Index from 30 June 2022. Important: This does not tell you how the fund will perform in the future.

What fees are investors charged?

Investors in the AMP Australasian Shares Fund are charged fund charges. In the year to 31 March 2023 these were:

	% net asset value
Total fund charges (estimated)^{4, 5}	2.44%
Which are made up of -	
Total management and administration charges (estimated)	2.44%
Including -	
Manager's basic fee ^{6, 7}	2.25%
Other management and administration charges (estimated) ⁸	0.19%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
NIL	

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). We may deduct a contribution fee of up to 5% of each payment for the purchase of units. This fee is agreed between you and your Adviser and is deducted from the amount contributed.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$502.00 (that is -5.02% of his initial \$10,000). Craig also paid \$0.00 in other charges. This gives Craig a total loss after tax of \$502.00 for the year.

Notes

- 1 From 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital, now known as Macquarie Asset Management (NZ) Limited (Macquarie), as the underlying fund manager for this fund. From 1 June 2019 through to 12 July 2021 the underlying investment of this fund changed from the NZ Shares fund managed by AMP Capital to the Australasian Shares fund managed by AMP Capital. The fund performance in the table therefore shows the performance of both investment strategies as well as fund performance which relates to AMPWM (with support from BlackRock Investment Management (Australia) Limited) and AMP Capital, now known as Macquarie.
- 2 Up until 1 January 2018 the return calculations included rebates of management fees which have been paid to qualifying investors. From 1 January 2018 the return calculations exclude any rebates paid to qualifying members. The returns shown incorporate the combined returns from both these calculation methods. No allowance had been made for any loyalty bonus which certain investors may be entitled to.
- 3 The returns shown for 2016 have been impacted as a result of a tax liability associated with the provision of the loyalty bonus (a feature of the scheme). This has resulted in a downward adjustment in unit prices and will affect the comparability of the 2016 returns against other years.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The total fund charges exclude loyalty bonuses which have been paid to certain members and the cost of future tax obligations on loyalty bonuses.
- 6 The Manager's basic fee is an estimated bundled fee for the combined services of the Supervisor, underlying investment management fees and an Adviser fee being up to 0.45%.
- 7 Members may receive fee rebates based on qualifying criteria. These rebates have not been included in the calculation of the fees. Members can refer to their product documentation, or contact AMP at the details below, to identify the fee structure applicable to them.
- 8 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 9 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
