

# Fund Update

for the year ended 31 March 2026

This fund update was first made publicly available on 18 June 2026

## What is the purpose of this update?

This document tells you how the AMP Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

The fund has a well-diversified portfolio that primarily invests in lower-risk income assets with a conservative allocation to growth assets. The fund aims to achieve modest to medium returns, in exchange there may be small movements up and down in the value of your investments.

Total value of the fund	\$7,794,924
Number of investors in the fund	176
The date the fund started	30 August 1996

## What are the risks of investing?

Risk indicator for the AMP Conservative Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-profiler](https://sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

## How has the fund performed?

	Average over past 5 years <sup>1, 2</sup>	Past year
<b>Annual return</b> (after deductions for charges and tax)	1.31%	3.66%
<b>Annual return</b> (after deductions for charges but before tax)	2.15%	5.96%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	3.51%	6.17%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Some components of the composite indices for this fund have changed in the past year to align with the underlying fund. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product. Additional information about the market index is available on the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz). Index disclaimers can be found on the AMP website at [amp.co.nz/indexdisclaimers](https://amp.co.nz/indexdisclaimers).

## Annual return graph<sup>1, 2, 3</sup>

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2026.

**Important:** This does not tell you how the fund will perform in the future.

## What fees are investors charged?

Investors in the AMP Conservative Fund are charged fund charges. In the year to 31 March 2026 these were:

	% net asset value
<b>Total fund charges (estimated)<sup>4</sup></b>	2.09%*
Which are made up of -	
<b>Total management and administration charges (estimated)</b>	2.09%
Including -	
Manager's basic fee <sup>5, 6</sup>	1.90%
Other management and administration charges (estimated) <sup>7</sup>	0.19%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	<b>Dollar amount per investor or description of how charge is calculated</b>
NIL	

\* Based on a decrease in expenses, the Manager estimates that the total fund charges for the next scheme year will decrease to 1.79% of the net asset value.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). We may deduct a contribution fee of up to 5% of each payment for the purchase of units. This fee is agreed between you and your Adviser and is deducted from the amount contributed.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$366.00 (that is 3.66% of his initial \$10,000). Craig also paid \$0.00 in other charges. This gives Craig a total return after tax of \$366.00 for the year.

## What does the fund invest in?

### Actual investment mix<sup>8</sup>

This shows the types of assets that the fund invests in.

10 New Zealand Government Bond - maturing 15 May 2028	1.45%	New Zealand fixed interest	New Zealand	Aaa

The top 10 investments make up 17.56% of the fund.

## Currency hedging

The fund will (or will invest in underlying funds that will) target:

- fully hedging foreign currency exposure from International fixed interest and Australasian equities;
  - hedging foreign currency exposure from International equities – Developed markets at 60% hedged to New Zealand dollars; and
  - not hedging foreign currency exposure from International equities – Emerging markets.
- a range of foreign currency hedging may be used at the discretion of the Manager - Other - Direct infrastructure.

## Further information

You can also obtain this information and some additional information from the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz).

## Notes

- 1 From 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital), now known as Macquarie Asset Management (NZ) Limited (Macquarie), as the underlying fund manager for this fund. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock Investment Management (Australia) Limited) and AMP Capital, now known as Macquarie.
- 2 From 12/02/2024 we have used a composite index to calculate market index returns for all asset classes with the exception of Other – Direct Infrastructure where no index is available. Between 30/09/2021 and 12/02/2024 we used a composite index to calculate market index returns. Prior to 30/09/2021 we used a composite of market indices and peer group for relevant asset classes. A composite index is calculated using the target investment mix weightings of the underlying appropriate market indices and where applicable, peer group indices for the asset classes that the fund invested into. The return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. A composite index may be a less reliable indicator of performance than an appropriate market index.
- 3 Up until 1 January 2018 the return calculations included rebates of management fees which have been paid to qualifying investors. From 1 January 2018 the return calculations exclude any rebates paid to qualifying members. The returns shown incorporate the combined returns from both these calculation methods. No allowance had been made for any loyalty bonus which certain investors may have been entitled to.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The Manager's basic fee is an estimated bundled fee for the combined services of the Supervisor, underlying investment management fees and an Adviser fee being up to 0.45%.
- 6 Members may receive fee rebates based on qualifying criteria. These rebates have not been included in the calculation of the fees. Members can refer to their product documentation, or contact AMP at the details below, to identify the fee structure applicable to them.
- 7 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 8 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
