| Total value of the fund | \$1,128,997 |
| The date the fund started | 30 August 1996 |

What are the risks of investing?

Risk indicator for the Australian Shares fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

| | Average over past 5 years ¹ | Past year ¹ |
|---|--|------------------------|
| Annual return (after deductions for charges and tax) | 3.85% | 11.06% |
| Annual return (after deductions for charges but before tax) | 3.85% | 11.06% |
| Market index annual return (reflects no deduction for charges and tax) | 7.58% | 14.60% |

The market index annual return is based on the S&P/ASX 200 (TR) (NZD). Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2018.

Important: This does not tell you how the fund will perform in the future.

What fees are investors charged?

Investors in the Australian Shares fund are charged fund charges. In the year to 31 December 2017 these were:

| | % of net asset value |
|--|---|
| Total fund charges ² | 3.00% |
| Which are made up of - | |
| Total management and administration charges | 3.00% |
| Including - | |
| Manager's basic fee ³ | 2.44% |
| Other management and administration charges ⁴ | 0.56% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |

NIL

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$1,106.00 (that is 11.06% of his initial \$10,000). Craig also paid \$0.00 in other charges. This gives Craig a total return after tax of \$1,106.00 for the year.

Notes

- 1 Up until 1 January 2018 the return calculations included rebates of management fees which have been paid to qualifying members. From 1 January 2018 the return calculations exclude any rebates paid to qualifying members. The returns shown incorporate the combined returns from both of these calculation methods.
- 2 The Total Fund Charges are inclusive of any applicable GST.
- 3 Qualifying investors may receive a fee rebate on the management fee. These rebates have not been included in the calculation of the total fund charges. To find out if a rebate applies to you, please refer to your regular member statements or contact AMP at the details below.
- 4 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 5 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
