

Fund Update

for the quarter ended 30 June 2023

This fund update was first made publicly available on 31 July 2023

What is the purpose of this update?

This document tells you how the Milford Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

To provide a diversified portfolio that primarily invests in equities, with a significant allocation to fixed interest securities. The fund's objective is to achieve capital growth over the minimum recommended investment timeframe.

| | |
|---------------------------------|------------------|
| Total value of the fund | \$29,681,151 |
| Number of investors in the fund | 1104 |
| The date the fund started | 23 February 2022 |

What are the risks of investing?

Risk indicator for the Milford Balanced Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

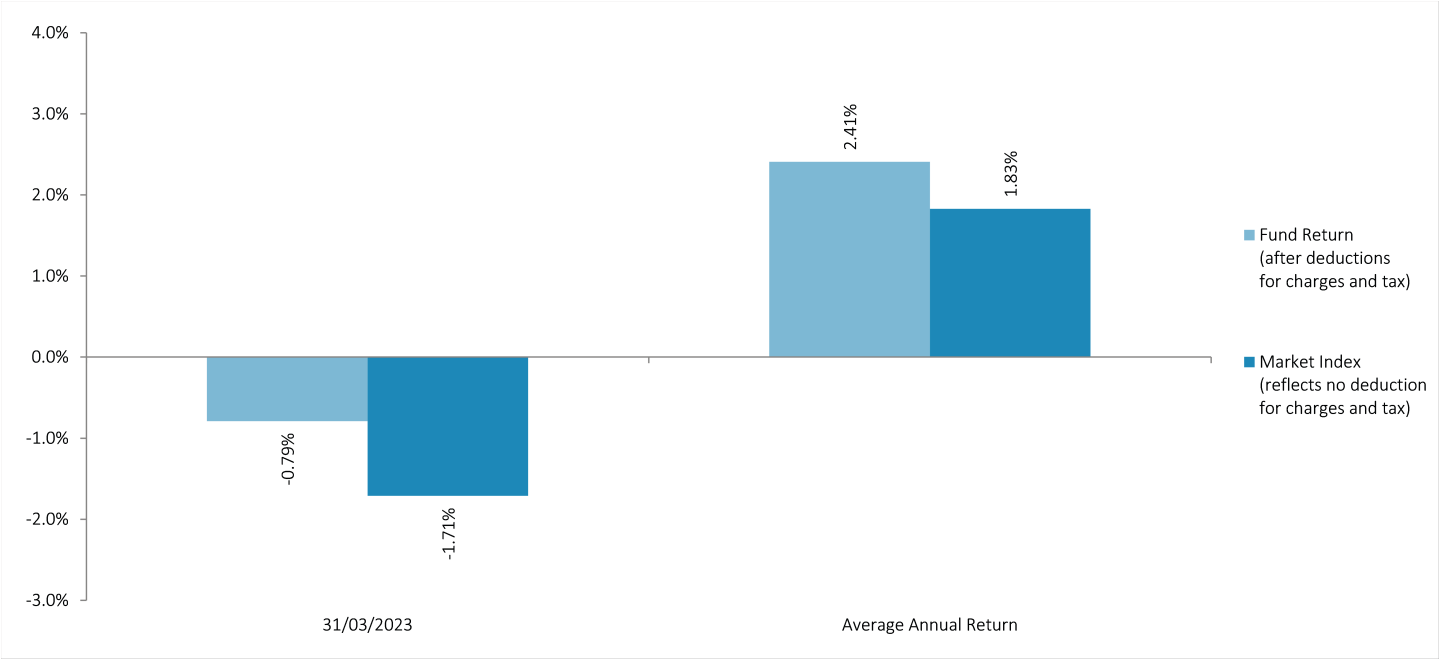

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Past year |
|---|-----------|
| Annual return (after deductions for charges and tax) | 7.67% |
| Annual return (after deductions for charges but before tax) | 8.29% |
| Market index annual return (reflects no deduction for charges and tax) | 10.14% |

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2023.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Milford Balanced Fund are charged fund charges. In the year to 31 March 2023 these were:

| | % of net asset value |
|--|---|
| Total fund charges (estimated) ² | 1.42% |
| Which are made up of - | |
| Total management and administration charges (estimated) | 1.42% |
| Including - | |
| Manager’s basic fee | 1.31% |
| Other management and administration charges (estimated) ³ | 0.11% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

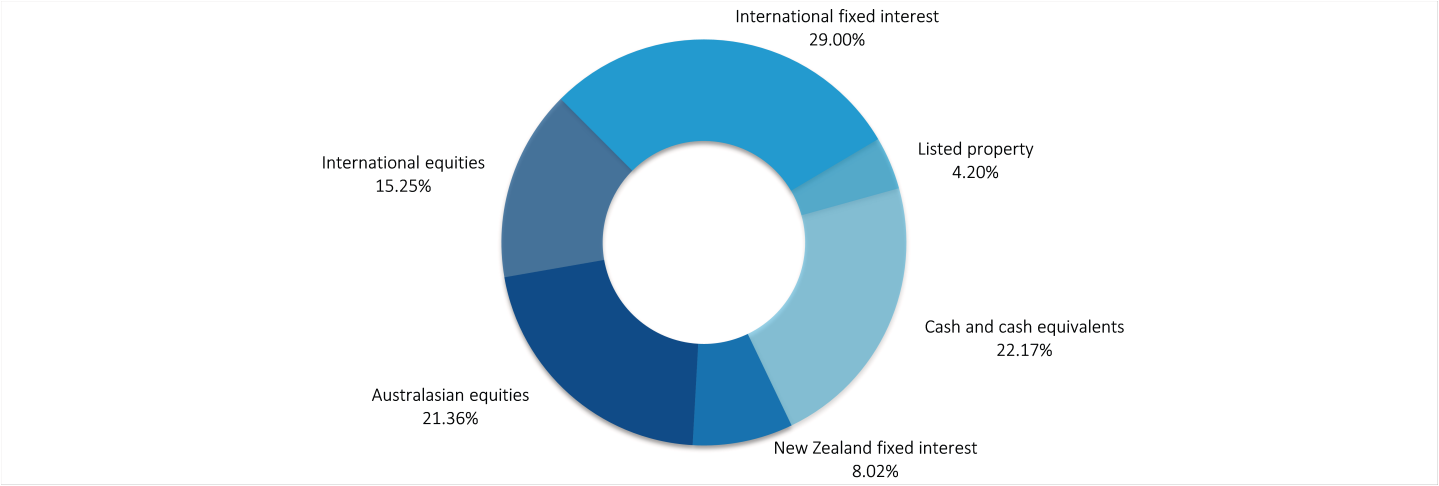

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$767.00 (that is 7.67% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$743.60 for the year.

What does the fund invest in?

Actual investment mix⁴

This shows the types of assets that the fund invests in.

Target investment mix

This shows the mix of assets that the fund generally intends to invest in.

| Katie Priscilla Breatnach | Investment Committee Member | 0 years and 4 months | GM Legal & Governance, AMP Wealth Management New Zealand | 0 years and 7 months |

Further information

You can also obtain this information, the PDS for the AMP KiwiSaver Scheme, and some additional information from the offer register at disclose-register.companiesoffice.govt.nz. The information in this fund update forms part of the PDS for the AMP KiwiSaver Scheme.

Notes

- 1
- As the fund started on 23 February 2022, actual returns for the last five years are not available. To calculate the risk indicator for the five year period up to the date of this fund update, a combination of market index returns, underlying fund returns and actual returns have been used where relevant. We consider this to be the most appropriate way to calculate the risk indicator, but as a result of this calculation, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund than it would if actual returns for the last five years were able to be used.
- 2
- The total fund charges are inclusive of any applicable GST.
- 3
- The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 4
- The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
