

What fees are investors charged?

Investors in the AMP Australasian Shares Fund are charged fund charges. Our estimate of the fund charges as at 31 March 2017 are:

	% of net asset value
Total fund charges (estimated) ^{2, 3}	1.16%
Which are made up of -	
Total management and administration charges (estimated) ^{2, 3}	1.16%
Including -	
Manager's basic fee	1.03%
Other management and administration charges	0.13%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee ²	\$23.40

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (companiesoffice.govt.nz/disclose) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$1,382.00 (that is 13.82% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$1,358.60 for the year.⁴

Notes

- 1 As the fund started on the date noted above, actual returns for the last five years are not available. To calculate the risk indicator up to the date of this fund update a combination of market index returns and actual returns have been used. Market index returns have been used up until 31 July 2016 and actual returns up to the date of this fund update to make five years of history of returns. We consider this is the most reasonable method available. As a result of this method being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 Different fees may apply to some members. Any different fees will be set out in the member booklet or supplement, if applicable, which you can request from your Adviser.
- 3 As the fund started on the date noted above, historical fee information for the most recent scheme year is not available. The total fund charges shown include our best estimates of the amount of costs and expenses that will be charged to the fund. These have been estimated as a percentage of the fund's net asset value and include both expenses expected to be incurred by the fund and fees (and costs) expected to be charged by the managers of the underlying funds in which the fund invests. These include fees for audit, printing and distribution, regulatory compliance, IT costs, administration manager charges, performance fees charged by unrelated underlying funds and other professional service fees. These fees have been determined using estimates provided by the underlying fund managers and our experience with the Scheme.
- 4 As the fund started on the date noted above, this calculation is based on the market index return for the past year and treats all investment returns as taxable.
- 5 The top ten investments and actual investment mix have been calculated excluding cash and cash equivalents held for operational purposes.
- 6 Simon John Hoole has not been named as a key person in the previous fund update for the fund as he was appointed on 2 February 2017.
