

Annual return graph^{1, 2, 3}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2022.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Mercer Balanced Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges (estimated) ⁴	1.26%
Which are made up of -	
Total management and administration charges (estimated)	1.26%
Including -	
Manager's basic fee (estimated)	1.13%
Other management and administration charges (estimated) ⁵	0.13%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

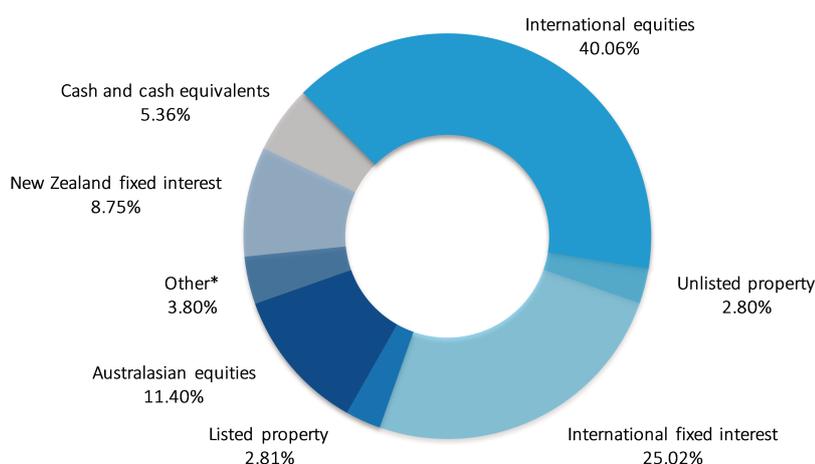

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$161.00 (that is 1.61% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$137.60 for the year.

What does the fund invest in?

Actual investment mix⁶

This shows the types of assets that the fund invests in.

*Other consists of Unlisted Infrastructure (3.80%)

Target investment mix

This shows the mix of assets that the fund generally intends to invest in.

Asset Type	Allocation
Cash and cash equivalents	4.00%
New Zealand fixed interest	10.00%
International fixed interest	26.00%
Australasian equities	12.50%
International equities	38.50%
Listed property	3.00%
Unlisted property	3.00%
Commodities	0.00%
Other**	3.00%

**Other consists of Unlisted Infrastructure (3.00%)

Top 10 investments⁶

Name	Percentage of fund net assets	Asset Type	Country	Credit rating (if applicable)
1 Mercer Balanced Portfolio	100.00%	Interest in a diversified fund	New Zealand	N/A
2 -	-	-	-	-
3 -	-	-	-	-
4 -	-	-	-	-
5 -	-	-	-	-
6 -	-	-	-	-
7 -	-	-	-	-
8 -	-	-	-	-
9 -	-	-	-	-
10 -	-	-	-	-

The top 10 investments make up 100.00% of the fund.

Currency hedging

The fund will (or will invest in underlying funds that will):

- fully hedge (after tax for a 28% PIR investor) foreign currency exposure arising from International fixed interest back to New Zealand dollars;
- hedge the foreign currency exposure arising from Listed and Unlisted property, Listed and Unlisted infrastructure and Commodities 100% net hedged (for a 28% PIR investor) back to New Zealand dollars; and
- hedge the foreign currency exposure arising from International equities (excluding Listed infrastructure) with a benchmark of 50% net hedged (for a 28% PIR investor) back to New Zealand dollars and a permitted range of 0% to 100%. Proxy hedging (i.e. using the currency of a country as a proxy for the currency of another country) is also permitted.

Where active currency management is being employed in accordance with the Active Currency Management Policy set out in the Statement of Investment Policy and Objectives, the result may be something other than a fully-hedged position for International fixed interest.

Key personnel

This shows the directors and employees who have the most influence on the investment decisions of the fund.

Name	Current position	Time in current position	Other current position	Time in other current position
Timothy Pritchard	Investment Committee Member	3 years and 0 months	General Counsel, AMP Wealth Management New Zealand	3 years and 10 months

Blair Robert Vernon	Investment Committee Member	10 years and 9 months	Chief Executive, AMP Wealth Management New Zealand	3 years and 3 months
Mark David Ennis	Investment Committee Member	1 year and 8 months	Managing Director, AdviceFirst Limited	2 years and 1 month

Further information

You can also obtain this information, the PDS for the AMP KiwiSaver Scheme, and some additional information from the offer register at disclose-register.companiesoffice.govt.nz. The information in this fund update forms part of the PDS for the AMP KiwiSaver Scheme.

Notes

- 1 From 25 June 2018 Mercer (N.Z.) Limited (Mercer) replaced Fisher Funds Management Limited (Fisher) as the underlying fund manager of the Fund. The fund performance in the table therefore shows fund performance which relates to both Mercer and Fisher.
- 2 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.
- 3 From Q1 2021, the methodology used to calculate the index return now uses daily returns, rather than monthly returns. As a result there will be a change in the index return for the years ended 31 March 2019 and 31 March 2020, compared with those shown in previous fund updates.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 6 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
