

Fund Update

for the quarter ended 31 March 2016

This fund update was first made publicly available on 28 April 2016

What is the purpose of this update?

This document tells you how the AMP Moderate Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that has an allocation to growth assets that broadly equals the allocation to lower risk income assets. The fund aims to achieve medium returns – in exchange there will be some movements up and down in the value of your investments.

Total value of the fund	\$458,539,790
Number of members in the fund	18,916
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the AMP Moderate Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <http://today.amp.co.nz/risk-profile-calculator>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past five years	Past year
Annual return (after deductions for charges and tax)	4.81%	0.66%
Annual return (after deductions for charges but before tax)	6.14%	1.03%
Market index return (reflects no deduction for charges and tax)	7.05%	2.96%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at <http://www.business.govt.nz/disclose>.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2016.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Moderate Balanced Fund are charged fund charges. In the year to 31 March 2015 these were:

	% of net asset value
Total fund charges (estimated) ¹	1.02%*
Which are made up of :	
Total management and administration charges (estimated) ¹	1.02%
Including :	
Manager's basic fee ²	-
Other management and administration charges ²	-
Total performance based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee ³	\$26.40

* Based on increased regulatory costs and administration expenses, the Manager estimates that the Total fund charges for the next scheme year will be 1.09% of the net asset value.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (<http://www.business.govt.nz/disclose>) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$65.91 (that is 0.66% of his initial \$10,000). Craig also paid \$26.40 in other charges. This gives Craig a total return after tax of \$39.51 for the year.

What does the fund invest in?

Actual investment mix⁴

This shows the types of assets that the fund invests in.

*"Other" consists of Global Infrastructure (3.44%)

Target investment mix

This shows the mix of assets that the fund generally intends to invest in.

Asset Type	Allocation

Further information

You can also obtain this information, the PDS for the AMP KiwiSaver Scheme, and some additional information from the offer register at <http://www.business.govt.nz/disclose>.

Notes

- 1 The total fund charges include administration fees that while calculated by reference to investment balances, are not allocated to specific funds. As the actual amount of the fee charged to the fund cannot be calculated, an estimate has been used. The estimate has been made by allocating the total of this fee for the funds other than the AMP Default Fund, equal to the proportion of the average net assets of the fund for the year to 31 March 2015 to the total average net assets of the funds other than the AMP Default Fund for the year to 31 March 2015.
- 2 At the time of producing this fund update, the Financial Markets Authority was in the process of providing guidance as to the correct methodology for calculating the "manager's basic fee" component of the fee disclosure. Given the uncertainty as to the method of calculation, the Financial Markets Authority has agreed that until the Manager is in a position to calculate that component in accordance with its guidance, only the "total management and administrative charges" need be disclosed.
- 3 Member fees are the fixed dollar charges for membership in the KiwiSaver scheme. On 1 July 2014, the member fee was reduced from \$2.95 per member per month (\$35.40 annually) to \$1.95 per member per month, resulting in an annual fee for the year ending 31 March 2015 of \$26.40. Note also that the amount of the member fee could be less if you are in an employer plan and the impact of these fees on you could be less than that set out in the example – check your Member Booklet for details.
- 4 The top ten investments and actual investment mix have been calculated excluding cash and cash equivalents held for operational purposes.
- 5 These individuals are members of the AMP Financial Services Investment Committee. The other members are Jeffery Darren Ruscoe (Chief Customer Officer, AMP Financial Services) and Christopher James White (Managing Director, Spicers). This Committee makes investment decisions in relation to the fund on behalf of the Manager. Members do not participate in any decisions where a conflict of interest arises. Sean Henaghan is not a director or an employee of the Manager.
