These returns should be read in conjunction with the notes below:

The returns stated represent in each case and for each fund, the percentage change in the unit price over the period.

The methodology used to calculate these returns assumes all income is reinvested into the fund. It is therefore a combined measure of both capital growth and income. All returns are expressed in New Zealand dollar terms, and as such are the returns to New Zealand investors. Returns shown for periods of one year or more are annualised.

These are not necessarily the returns individual investors will receive as this will depend on the prices at which units are purchased and sold, the dates of these transactions and any additional contributions or withdrawals made during the period.

Past performance is not indicative of future performance and is not guaranteed by any party.

Returns are after the annual management fee and tax. No allowance has been made for any entry fees.

The AMP Savings and Investment Portfolio Unit Trust unit prices do not recognise the benefit of tax losses but do recognise the value of refundable tax balances held with IRD by each fund.

These returns assume that no rebate of the annual management fee has been applied. Rebates may currently apply for investments exceeding \$50,000.

The information has been derived from sources believed to be accurate at the time of issue. None of AMP Wealth Management New Zealand Limited, The New Zealand Guardian Trust Company Limited, the underlying fund managers, any related companies or any other person guarantees the Trust, any investment in the Trust, or any returns on an investment in the Trust, or gives any warranty of reliability or accuracy, or accepts any responsibility arising in any way including from any error or omission.
