The performance calculations above are before the deduction of PIE tax and ongoing advisory fees but after management fees and expenses attributable to the fund. This is represented by the change in unit price plus any applicable tax credits and formation losses. Returns for two years or more have been annualised. It is assumed that no entry and exit fees have been incurred during the return calculation periods and that distributions have been reinvested. The issuer of the funds is AMP Wealth Management New Zealand Limited. Every effort has been made to ensure accuracy but no liability is accepted for any error of fact. Note that past performance is not necessarily a guide to future returns. No guarantees of performance or the repayment of capital are provided by the trustee (The New Zealand Guardian Trust Company Limited), AMP Wealth Management New Zealand Limited, or any other party. Taxation is deducted at an investors PIR rate for all PIE investment vehicles.
